(price per barrel) \$35.00

Pigeon porting when done after a barrel has already been porting

With the standard configuration (price per barrel) \$80.00

RIFLE PORTING

Competitive shooters and hunters know the importance of being able to squeeze off a fast accurate second shot. Mag-na-port offers shooters a recoil reduction of about 15% with its four port rifle system.

Traditional Mag-na-port (four ports) \$145.00

Rifles with banded ramped front sights (two ports) \$110.00

HANDGUN PORTING

Traditional Mag-na-porting of a handgun consists of two trapezoidal ports cut into the barrel approximately 1/2 inch from the muzzle. These ports are placed at approximately 35 to 45 degree angles. For the shooter, this translates into a reduction of perceived recoil of 15 to 20%! Can be done on barrels on any length. \$100.00

Two ports on revolvers with shrouded barrels like Dan Wesson or

Smith & Wesson Scandium models \$155.00

Four ports on Smith & Wesson Model 500 or 460 \$215.00

Revolvers or Thompson Center Contenders or Encores with barrels

7.5" to 16" we recommend a four port configuration. \$130.00

Auto pistols Mag-na-port offers a unique system of porting

Semi-automatics by using a trapezoidal port through the barrel and an oversized expansion vent through the slide to allow maximum dissipation

Without fouling. This process offers an alternative to shooters not

Wanting additional weight or length from add on compensators. \$145.00

PORTING UP CHARGES

Barrels coated with nonconductive finishes such as Teflon or camo

Coating require and additional charge \$20.00

Heavy or bull barrels require an additional charge \$20.00

CERAKOTE

Pricing includes: Bead blasting and cerakote application

Long gun (one color) \$180.00
